Oath or Declaration

Dear Mr. Schwarz,

together with this letter you will find again the Declaration form PTO/SB/01 for your signature. With this signature it is still possible secure rights in the USA. You will not have to pay any fees because I am doing this. If you still feel uncomfortable signing the form it is up to you to declare this in one sentence:

Second Inventor refuses signature

Dr. Harald Schwarz

Thanks a lot for you help.

With regards,

Jan P. Wilbert

Declaration of the Witness:

J. Inge Willert, born on April 28th 1970 in Pforzheim, Germany, saw Jan Willert mailing the declaration dated Oct. 11th 2000 to Kaya Baltimore, National Stage Process, Washington, as a response to her Notification of Missing Requirements, dated Sept. 6th 2000.

Your letter from Nov. 16th 2001 and our telephone conversation from the Dec. 10th 2001
Serial No. 09/601013I

Dear Mrs. Kratz,

*09/601013 - per form 2038.
f. Hg*

Please consider me as a "small entity".

I am surprised about the "Decision of Petition" because your colleague Mrs. E. Kurtc,
Telephone 703 308 36 42, told me that everything is all right now.

Please find again the cover letter from Oct. 11th 2000 and the statement of the witness. I did
send the "Declaration". Please find the credit card Payment Form for the 65 \$. It is true that
the signature of the second inventor was missing. But it was never complained in the process
before the "Decision on petition" that the second signature was missing. The second inventor
just did not sign it. My legal understanding told me that it must be possible to do the
application alone. Since there is no extra form for this case some help from your side would
have been favorable.

Meanwhile, after sending him the attached letter I was able to receive the signature of Prof.
Schwarz.

I will add a payment form for 640 extra Dollars. Please use it if it is the only way of renewing
the Petition Under 37 CFR 1.137 (b) of the Application 09/601013I.

With best regards,

Dr. Jan Wilbert
